An Orange farmer, bound for market to-day, arrived in Barre this noon with a report that the northwest wind had blown drifts in the highway far higher than at any other time this winter. When the wind began to veer into the west, conditions in the hill towns to the east did not improve and in one instance a drift as high as the heads of the horses was encountered. The same farmer is authority for the statement that people living in the outlying districts do not think of issuing forth in teams without a shovel or two. Continued fair weather and colder, to-day's weather report, indicates that condition will not improve unless the wind abates.

First results of the big advertising campaign which producers and manufacturers of Barre granite have inaugurated are to be noted in next week's issue of the Saturday Evening Post, wherein a page advertisement, illustrating a prominent work of memorial art in Barre granite is to appear. With a circulation of more than 2,000,000 copies, Barre granite is bound to be brought to the attention of many readers through that medium alone. From time to time The Times will contain interesting announcements of what the advertising campaign is to mean to Barre and Barre granite. Proofs of The Post advertisement may be seen in the windows of the Drown and Cummings & Lewis pharmacies.
